It was understood yesterday that Mr. Royall had written or was going to write to Governor Lee stating that the officers of the Commonwealth various portions of the State were about to cause executions to issue under 'the coupon-crusher," and declaring that this might prove fatal to negotiations for a settlement.

The Governor in his message recommended that the operations of the coupon-crusher be suspended for a short time, so that the Legislature might have a conference with the representatives of the bondholders. No action on this suggestion has been taken, simply because the House is not yet fully organized for legislative work; Speaker Cardwell not having announced his committees, but very probably he will do so to morrow, in which case action will be delayed very little longer. A "POINTER."

If one may judge from what he hears members say, the general sentiment is that the two Finance Committees should have charge of this debt subject in preference to a special committee.

It is argued that the question properly belongs to these committees, and that the selection of special committees is invariably attended by such jealousies as interferes with the work to be done. . The steps proposed are that "the coupon-crusher" shall be temporarily suspended; that then the Legislature

shall give the representatives of the Council of Bondholders and of all other creditors the opportunity of appearing Speaker Cardwell has a more than

In other words, Riddleberger bonds to the amount of \$500 reamount of \$1,000.

Up to yesterday, as stated in the Dis-patch, there had been funded 879,437; funded yesterday, \$53,000; total funding since Judge Bond was reversed,

Of the bonds presented yesterday \$40,000 were in one batch. There are in the hands of one broker in the city, already listed, \$50,000 more. But few consol bonds have been funded. At the office of the Assistant Treasurer

of Richmond previous to the recent decision of the Supreme Court \$12,000 in coupons had been tendered in payment of taxes.
